Profile

Frontend Developer with a passion for creating high-caliber, intuitive user interfaces. Driven by a product-centric mindset, I frequently venture into full-stack development to build tools that feel effortless, technically rigorous, and joyful for the user.

Experience

University of Porto, Teaching Assistant – Databases and Web Applications Lab — Porto, Sept 2026 – Present

- Collaborate in the development of course materials (guides, tutorials) and provide student support in weekly sessions, as well as answering doubts asynchronously.

Cloudflare, Software Engineer Intern — Lisbon, July 2026 – Sept 2026

- Built and shipped a feature-gated Workflows Timeline in the Cloudflare Dashboard with **React**, **TypeScript**, **Kumo**, and **ECharts** — a waterfall chart providing a more comprehensive view of a workflow instance, visualizing live step timing, retries, waits, errors, and concurrency.
- Contributed to overall improvements across the Workflows section of the dashboard.

NIAEFEUP, Project Manager – TTS — Porto, May 2026 – Present

- Lead **Time Table Selector** (tts.niaefeup.pt), the open-source platform where University of Porto students experiment with all possible class schedule combinations at the start of the semester, and the official class exchange platform for L.EIC and M.EIC students.
- Coordinate the team through a full backend remake, migrating off the legacy **Django** service onto a **Bun** workspace monorepo with a **Bun** + **Elysia** + **Prisma** backend and a **React** + **Vite** + **Tailwind CSS** frontend — setting the roadmap and turning student feedback into product and engineering priorities.
- Progressed from Recruit (Nov 2025 – Mar 2026) to Member (Mar – May 2026), contributing to **uni** with Flutter and NIAEFEUP's new website with Svelte.

Robotair, Frontend Summer Intern — Porto, July 2025 – Aug 2025

- Played a central role in the UI/UX redesign of the company's web app, modernizing Robots, Pipelines, and Secrets with **React** and **Tailwind CSS**.
- Implemented Rigel testing, optional ROS deployments, unit-testing configuration, and critical bug fixes for a production product used by real clients.

Education

MSc **University of Porto**, Software Engineering (MESW) — Sept 2026 – July 2028 (Expected)

- **Relevant Coursework:** Software Architecture, Testing, and AI for Software Engineering.

BSc **University of Porto**, Informatics and Computing Engineering — Sept 2023 – July 2026

- **Relevant Coursework:** Databases and Web Applications Lab (LBAW), Web Technologies and Languages (LTW), Software Engineering (ES), Algorithm Design (DA).

Projects

Personal Portfolio — franciscapt.dev

- Designed and built the site from scratch with **React 19**, **TypeScript**, **Tailwind CSS v4**, **Motion**, and **Vite**, including a custom design system, physics-based interactions, a scroll-driven narrative, and a **Cloudflare Pages Functions** contact pipeline with validation, rate limiting, and spam protection.

Cadence — cadence.franciscapt.dev

- Designed and shipped a full-stack music journal that turns daily Spotify picks into an interactive calendar, using **SvelteKit**, **Svelte 5**, **TypeScript**, **Tailwind CSS**, and **Cloudflare**.
- Implemented Spotify OAuth with **Auth.js**, a **Drizzle** / **Turso** schema, drag-and-drop rescheduling with touch support, playlist import/export, and song previews.

Volunteering

VO.U, Pelos Animais — Sept 2024 – Present

- Actively contribute to animal care and welfare while assisting in events to raise awareness.

Mentoria UP — Sept 2025 – July 2026

- Provide guidance and support to first-year students to facilitate academic and social integration.

Skills

Languages: JavaScript, TypeScript, PHP, Python, Java, C, C++, Dart, Haskell, Prolog, HTML, CSS
Technologies: React, Svelte, Tailwind CSS, Laravel, Flutter, Firebase, Docker, PostgreSQL, SQLite, Git, Figma
